

## Pacific Solutions and Leximancer

### Q What is *Leximancer*?

*Leximancer* is a Vista and Mac compatible **qualitative research analysis program** that allows you to map themes, concepts and their associated relationships from a body of text. It is a concept mining tool offering objective, actionable insight in the form of visually compelling concept maps, dashboard reports and other xml exports. *Leximancer* is used in over 100 academic establishments world-wide.

### Q Are your transcripts *Leximancer* compatible?

Pacific Solutions is a *Leximancer* reseller in the academic market. Pacific Solutions has undertaken *Leximancer* training, and is able to provide **compatible transcripts** of any text based source that you need to analyse. This means that once we have completed your transcript, it can simply be imported straight into *Leximancer*, saving your time for indepth analysis.

### Q Can you provide any other services with *Leximancer*?

We are able to assist your qualitative research project by providing **basic reports and analysis**.

For more information, visit our partners page at:  
<http://www.pacificsolutions.com.au/partners.php>

### Q I would like to use *Leximancer* to analyse my transcripts. How much does it cost to **purchase** the software?
