Pacific Solutions and Leximancer

Q What is **Leximancer**?

Leximancer is a Vista and Mac compatible **qualitative research analysis program** that allows you to map themes, concepts and their associated relationships from a body of text. It is a concept mining tool offering objective, actionable insight in the form of visually compelling concept maps, dashboard reports and other xml exports. Leximancer is used in over 100 academic establishments world-wide.

Q Are your transcripts **Leximancer** compatible?

Pacific Solutions is a Leximancer reseller in the academic market. Pacific Solutions has undertaken Leximancer training, and is able to provide compatible transcripts of any text based source that you need to analyse. This means that once we have completed your transcript, it can simply be imported straight into Leximancer, saving your time for indepth analysis.

Q Can you provide any other services with **Leximancer**?

We are able to assist your qualitative research project by providing **basic reports and analysis**. For more information, visit our partners page at:
